

PROPER HAND HYGIENE

1 Use water and soap to wash your hands; keep water running while washing your hands. Alternative: Use disinfectant to wash your hands.

2 Rub the palm of your hands against each other.

3 Rub the palm of your right hand against the back of your left hand and vice versa; keep your fingers intertwined.

4 Rub your hands against each other while keeping your fingers intertwined.

5 Hook your hands into each other in order to soap the back of your fingers

6 Make a fist around your right thumb, then rotate around it and vice versa.

7 Rub the fingertips of your left hand on the palm of your right hand rotating in both directions and vice versa.

8 Rinse your hands with much water and thoroughly dry them with a disposable paper tissue. If you have washed your hands with disinfectant your hands will dry on their own.

9 Turn of the water using the paper tissue. Now your hands are properly cleaned.
